FALL WINTER 2019 Collection

MASERATI COLLECTION INTRODUCES ITS NEW AUTOMATIC MOVEMENT

The Maserati watches world is ready to give you new emotions with the exclusive new caliber of its automatic watches. These news prove the attention of the brand to details and innovation. Because every element of a watch, even the apparently insignificant one, has its function, necessary to keep the pace with the flowing time.

For the first time, the house of the Trident introduces SEIKO NH70 with Maserati branded rotor caliber. An innovation that will fuel your passion for the engine by wearing a Maserati watch.

With the Maserati watches every element isn't just a piece of an impeccable ensemble: it's an homage to the mechanics and the performances of the sport icon. A goal to celebrate with a skeleton or semi-skeleton automatic movement, a detail that revamps all the emotion of the race.

MASERATI

COLLECTION

These watches tell a story about past and future, about a brand that becomes an icon of elegance, uniqueness and power.

A story that lives in every details: the case, the hands that reflect the teeth of the triton and the caliber branded Maserati. Curved shapes like those of cars, which after a century are still able to fascinate and surprise us, even on the wrist.
